ABOUT ME

An enthusiastic and motivated student with good knowledge of java programming and web development. Eager to apply technical skills and problem solving abilities to contribute effectively and grow in the software development industry.

EDUCATION

VIDYAA VIKAS MATRIC HIGHER SECONDARY SCHOOL
Higher Secondary Certificate
Graduated 2022 | Morepalayam
Percentage: 90%

BANNARI AMMAN INSTITUTE OF TECHNOLOGY
Bachelor of Engineering in Electronics and Communication Engineering
Graduated 2026 | Sathyamangalam
CGPA: 7.8

SKILLS

PROGRAMMING LANGUAGE
• Java

FRONTEND
• HTML • CSS • JavaScript

TECH STACK
MERN(MongoDB,Express,React,Node)

DATABASE & TOOLS
• SQL • GitHub • Canva • Figma

HOBBIES

• Driving • Chess • Carrom

SOFT SKILLS

• Team Work • Time Management
• Adaptability

LANGUAGES

• English • Tamil

PROJECTS

COURSE EXEMPTION WEB APPLICATION | Full Stack Web for One-Credit Course Management and Exemption

- Built a full-stack web application using the MERN stack for managing One-Credit Courses and exemption requests.
- Implemented secure JWT authentication with role-based access for students and admins.
- Enabled students to register for courses uploaded by teachers and apply for exemption after completing three One-Credit courses.
- Developed an admin dashboard to track student registrations and exemption requests, allowing teachers to approve or reject the requests.

CHAT WEB APPLICATION | Real-Time Communication Web Application System

- Built a real-time chat application using the MERN stack with Socket.io for live communication.
- Developed real-time messaging functionality with user presence status and Cloudinary integration for image uploads.
- Integrated password hashing using bcryptjs and ensured session management with HTTP-only cookies.

CENTRALISED FEEDBACK SYSTEM | AI-Driven MERN Stack Feedback Analytics Platform

- Built a full-stack MERN platform with JWT-based authentication and role-based access control.
- Developed a dynamic feedback engine with PDF support and integrated AI sentiment analysis (Google Gemini API).
- Created real-time analytics dashboards using Recharts with a responsive UI (Tailwind CSS, Framer Motion).

CERTIFICATIONS

- NPTEL: Problem Solving Through Programming in C

ACHIEVEMENTS

- Won 2nd Prize in Enigma - Coding Competition at Kumaraguru College of Technology

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief.
