GIRIDHARRAJA

Aspiring Software Engineer

tgiridharaja1811@gmail.com 9566336365 linkedin.com/in/giridharrajat

CAREER OBJECTIVE

- Motivated B.E. Computer Science and Engineering (AI & ML) student with a strong interest in software development, artificial intelligence, and emerging technologies.
- Seeking an opportunity to apply programming, web development, and problem-solving skills to real-world projects while learning industry practices and continuously improving technical and professional abilities.

EDUCATION

BACHELOUR OF ENGINEERING (2023-2027)
B.E. Computer Science and Engineering (Al & ML)
Velalar College of Engineering and Technology
CGPA: 5.95

SCHOOLING (2022-2023)
Vivekanantha Matric Higher Secondary School, Vellode
Higher Secondary Education (HSE)
Percentage: 69.95%

TECHNICAL SKILLS & TOOLS

Programming - Python, Java
Web-HTML, CSS
Tools-Antigravity IDE, OpenCode, Git, GitHub

INTERNSHIP

SPARKOUT TECH SOLUTIONS - BLOCKCHAIN INTERNSHIP

- Gained practical knowledge of blockchain fundamentals, decentralized systems, and secure digital data management.
- Learned real-world blockchain applications for building secure, transparent, and tamper-resistant software solutions.

THIRANEX ONLINE - WEB DEVELOPMENT INTERNSHIP

- Gained hands-on experience in web development using HTML and CSS to create structured, well-styled web pages.
- Learned basic front-end development practices, including page layouts, user-friendly design, and clean web interfaces.

PROJECTS

Al BASED ROLE OPTIMIZED RESUME DEVELOPER AND SKILL GAP GUIDANCE SYSTEM

- Developed an Al-based system designed to generate role-specific and optimized resumes based on a user's skills,qualifications, and targeted career role.
- Identfies skills required for a particular job role and compares them with the user's existing skil set to highlight skillgap.
- Provides skil-gap guidance to help users understand areas for improving their technical knowledge and careerreadiness.
- Aims to make resume building more relevant to specific job requirements while providing personalized career guidance.

SECURE OFFLINE DIGITAL WALLET

- Developed a secure digital wallet concept designed to provide access to digital assets when intermet connectivity islimited or unavailable.
- Focused on maintaining security, privacy, and reliable access to wallet information in an ofline environment.
- Explored approaches for protecting sensitive wallet data and supporting secure digital transactions.

ACHIEVEMENTS & CERTIFICATES

- Secured 1st Prize in the Intra-Department Prompt Event.
- Secured 2nd Prize in the Intra-Department Ideathon Event.
- Value-Added Course Certificate: Power Bl, Rest API.
- Attended a workshop at another college to enhance technical knowledge and gain practical experience.

DECLARATION

Thereby declare that the information provided above is true and correct to the best of my knowledge.
