INTERNSHIPS

UI/UX Intern - Frontline Technologies, Karur

- Designed responsive wireframes and user interface prototypes using user-centered design principles.
- Participated in design reviews to improve layouts, navigation, and overall user experience.
- Applied usability and interface consistency principles while developing prototypes.

PROJECTS

UzhavanQ — UI/UX Design

Figma

- Designed a complete Figma design system and interactive prototype for a farmer-first slot-booking experience, including wireframes and live-capacity visuals.
- Built bilingual (Tamil/English) UI flows to make the interface accessible to farmers across language backgrounds.

Zovatek — Startup Website

React | Vite| Tailwind CSS

- Designed and built the official website for Zovatek, my own startup, as a responsive single-page application.
- Focused on a clean, modern interface using React, Vite, and Tailwind CSS.

Ayurvedic Herb Traceability System

React | Node.js

- Built a blockchain-style ledger system that tracks herbs from farm to consumer via QR codes.
- Designed and built four separate portals — Farmer, Lab, Manufacturer, and Consumer — each tailored to what that user actually needs to see and do at their stage of the supply chain.

ACHIEVEMENTS

- Finalist - **ANRF AISEHack 2026 National Climate AI Hackathon**
- Participant - **Smart India Hackathon (SIH)**
