MONIKA M

Komarapalayam, Namakkal-638183, Tamil Nadu 7708873788 mmonikamatheswaran@gmail.com LinkedIn GitHub

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building web applications using HTML, CSS, JavaScript, and Django. Skilled in developing responsive user interfaces, implementing Django views and URL routing, and working with MySQL and PostgreSQL databases. Seeking an entry-level Frontend Developer or Junior Full Stack Developer role to apply my technical skills and contribute to real-world web applications.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript
Backend: Python, Django
Databases: MySQL, PostgreSQL
Tools: GitHub, VS Code

PROFESSIONAL EXPERIENCE

Frontend Developer **May 2026 – August 2026**
Mahe Software Solutions

- Built and maintained UI components for the Saasublimation ERP platform, translating business requirements into functional web pages using HTML, CSS, and JavaScript.
- Tested application flow to identify and fix bugs related to incorrect data storage and business logic.

Frontend Developer Intern **Jan 2026 – Apr 2026**
Mahe Software Solutions

- Learned Django fundamentals, including models, views, URLs, and templates, while contributing to a live ERP project under senior developers.
- Built and modified web pages using HTML, CSS, and JavaScript as part of the Saasublimation platform with team.

PROJECTS

SkillForge – Learning & Course Management Website | *HTML5, CSS3, JavaScript*

- Developed a multi-page learning platform with course browsing, course details, student dashboard, quiz, cart, login, and registration features.
- Implemented dynamic course rendering, search, category filtering, and sorting using JavaScript arrays and objects.
- Built interactive cart and enrollment functionality with add/remove actions, quantity handling, and automatic price calculations.
- Implemented client-side form validation and frontend authentication flow using JavaScript.

Students Voice and Support System | *HTML, CSS, JavaScript, Django*

- Developed a web-based platform that enables students to submit feedback, concerns, and suggestions through a structured interface.
- Used **Django** to handle application logic, user data, and database operations.
- Designed and developed user-friendly web pages using **HTML and CSS**.
- Implemented interactive features and form validation using **JavaScript**.
- Developed functionality to manage and track student concerns and support requests.
