Basic Computer Knowledge

Adobe Photoshop

INTERESTS

Data entry | Documentation | Quality Control

PROJECTS

Smart Glasses For Multimeter
To develop a wearable smart glass that displays real-time multimeter readings (voltage, current, resistance, etc.) directly in the user's view using augmented reality (AR).

Smart Waste Management Collection And Monitering System Using IOT
Developed an IoT-based system to monitor and manage waste collection efficiently. The system uses smart sensors placed in waste bins to measure the fill level and transmit real-time data to a central monitoring dashboard via the Internet of Things (IoT).
