PROFESSIONAL SUMMARY

Detail-oriented Computer Science and Business Systems graduate with hands-on experience building scalable web applications using Java and Spring Boot. Proficient in designing robust REST APIs, managing relational and non-relational databases (MySQL, MongoDB), and integrating secure JWT authentication protocols. Proven ability to solve complex programmatic challenges, eager to contribute high-quality code to an innovative development team.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, SQL (Structured Query Language)
- **Backend Development:** Spring Boot, REST APIs, Object-Oriented Programming (OOP)
- **Frontend Technologies:** JavaScript, HTML5, CSS3
- **Databases & Tools:** MySQL, MongoDB, Git, GitHub, Figma, MS Excel

ACADEMIC PROJECTS

Smart Ride — *Full Stack Java Developer*

- Engineered a secure backend infrastructure utilizing Java and Spring Boot REST APIs to handle seamless ride-sharing workflows.
- Implemented JSON Web Token (JWT) based authentication architecture to enforce strict role-based access management for Customers, Drivers, and Admins.
- Integrated Google Maps API to automate route optimization and dynamically compute real-time fare estimations for active users.
- Designed and optimized relational database schemas in MySQL to maintain high data integrity for user profiles, transaction logs, and trip history.

Financial Forecasting Dashboard — *Python Developer*

- Developed an interactive data forecasting dashboard using Python and Streamlit to model projected future living costs.
- Utilized Pandas and NumPy to clean and analyze historical inflation datasets sourced directly from real-time MOSPI data API streams.

PROFESSIONAL EXPERIENCE

Full Stack Developer & SEO Intern | Four Arrows (www.fourarrows.net)

May 2024 – June 2024

- Connected and configured a MySQL database to support core website functionality and data storage.
- Deployed the full stack website to a live hosting environment, ensuring functionality and accessibility post-launch.
- Executed data-driven On-Page and Off-Page SEO optimization methodologies to scale organic search engine visibility and keyword rankings.
- Conducted exhaustive technical keyword research and architectural updates, leading to a measurable increase in target web page discoverability.

EDUCATION

VSB Engineering College, Karur, India

- Bachelor of Technology (B.Tech.) in Computer Science and Business Systems | CGPA: 7.8 / 10

Vivekananda Higher Secondary School, Namakkal, India

- HSC (12th) – Percentage: 78%
- SSLC (10th) – Percentage: 98%

CERTIFICATIONS

- Programming in Java – Infosys Springboard
- AWS Academy Cloud Foundation & Cloud Operations – AWS Academy
- Cloud Computing Solutions – Infosys Springboard
- Search Engine Optimization (SEO) – Black Hat SEO

LEADERSHIP & ACHIEVEMENTS

- Smart India Hackathon (SIH): Selected at the highly competitive institutional/college level to represent the department with an innovative prototype solution.
