THIRUVENGADAM K

Sankagiri West, Tamil Nadu, India | +91 7010217266 | tvengadam608@gmail.com | linkedin.com/in/thiruvengadam-thiru-273442298

PROFESSIONAL SUMMARY

Full-stack software engineer with hands-on internship experience building and deploying production web applications using React.js, Next.js, FastAPI, and PostgreSQL. Skilled in designing RESTful APIs, integrating third-party services (OAuth 2.0, payment gateways, email/communication platforms), and shipping cloud-hosted solutions across social media management, restaurant operations, and client assessment platforms. Comfortable debugging production issues, automating workflows, and collaborating in Agile teams, with growing exposure to Generative AI, RAG, and prompt engineering.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL
Frontend: React.js, Next.js, HTML5, CSS3
Backend: FastAPI, RESTful API Development, SQLAlchemy, OAuth 2.0, Webhooks, Microservice & MVC Architecture
Databases: PostgreSQL, MySQL
AI / GenAI: RAG, Vector Databases, Prompt Engineering, n8n Workflow Automation
Tools & Platforms: Git, GitHub, Postman, Thunder Client, VS Code, Vercel, Render, Power BI

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern – Digiking Service Providers

July 2025 – Present

Social Media Publishing & Management System

- Engineered a full-stack platform (React.js, FastAPI) to centralize social media publishing across Facebook, Instagram, and YouTube, integrating OAuth 2.0 to secure third-party API access.
- Designed modular RESTful APIs for content publishing, analytics retrieval, and platform integrations, following scalable backend architecture principles.
- Built a multi-platform publishing engine supporting scheduled content delivery and automated workflow execution across integrated channels.
- Developed responsive React.js interfaces for event and feedback management while collaborating in an Agile team.

Restaurant Operations Platform

- Built React.js and FastAPI modules enabling tablet-based restaurant management and real-time operational monitoring.
- Designed RESTful APIs for tablet operations, menu management, and transaction processing, improving system reliability and workflow efficiency.
- Debugged production issues by tracing API responses, PostgreSQL records, and application workflows to root-cause and resolve defects.
- Automated Google Sheets synchronization and email delivery with n8n, connecting webhook-driven workflows to FastAPI backend services.
- Improved UX through reusable React components, dashboard enhancements, and status indicators based on evolving business requirements.

Client Assessment & Payment Platform

- Architected a production-ready full-stack application (Next.js, TypeScript, FastAPI, PostgreSQL) delivering client assessments, digital payment processing, and automated report generation.
- Built modular RESTful APIs with FastAPI and SQLAlchemy for authentication and assessment lifecycle management, prioritizing clean, maintainable architecture.
- Integrated Razorpay and Brevo via secure API and webhook workflows for transaction processing and automated customer communications.
- Managed end-to-end deployment across Vercel and Render, handling environment configuration and production releases.

AI & Data Analytics Intern (TNSDC Sponsored) – SPAARK Technologies, Coimbatore

May 2024 – August 2024

- Evaluated Generative AI tools (ChatGPT, Claude, Gamma) to support AI-assisted business workflows and applied prompt engineering techniques.
- Queried, cleaned, and managed structured datasets using SQL to support analytics initiatives.
- Built interactive Power BI dashboards for data visualization and reporting.

EDUCATION

B.E. in Electrical and Electronics Engineering – CGPA: 8.3
Government College of Engineering, Erode | Anna University – Nov 2021 to May 2025
