PROFESSIONAL SUMMARY

Final-year Electronics and Communication Engineering student with a strong foundation in electronics, embedded systems, microcontrollers, complemented by hands-on experience in software development. Skilled in Java, JavaScript, TypeScript, React.js, Node.js, and full-stack application development, with experience building web applications, RESTful APIs, and AI-powered solutions through internships and projects. AWS Certified Cloud Practitioner with strong problem-solving skills, seeking an entry-level engineering role where I can apply both core electronics and software development skills.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript , C, C++
- **Hardware & IoT:** ESP32, Arduino, Circuit Design, MQTT, HTTP REST APIs, Sensor Interfacing (I2C/SPI)
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Tools & Platforms:** Arduino IDE, Git, GitHub, Postman, VS Code, Vercel, Render, Supabase, Thinger.io / Blynk

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern – KioTech *[View]* **Dec 2025 – Jan 2026**

- Designed and implemented RESTful APIs in Node.js/Express with JWT authentication and role-based access control, securing 6+ application modules.
- Integrated React components with backend services and optimized MongoDB queries, ensuring smooth data flow and reducing API response time.

Java Programming Intern – CodeAlpha (Remote) *[View]* **Mar 2026 – Apr 2026**

- Built three OOP-based Java applications (Stock Trading Platform, AI Chatbot, Hotel Reservation System) implementing transaction, booking/cancellation, and file-based data management logic.

PROJECTS

IoT-Based Worker Safety Monitoting System **Dec 2025**

ESP32, IoT, GPS, GSM, Sensors, Embedded C

- Built an IoT-based worker safety monitoring system using ESP32 with gas, health, and environmental sensors.
- Integrated GPS for real-time location tracking and GSM for emergency SMS alerts.
- Enabled continuous monitoring of worker health and environmental conditions to improve industrial safety.

RoutineOS – AI-Powered Habit & Routine Builder **Jun 2026**

Next.js, Node.js, Express.js, Supabase, Firebase FCM | *routineos-site.vercel.app*

- Architected and deployed an installable Progressive Web App, enabling direct install on Android/iOS without an app store.
- RoutineOs is an AI-powered habit and routine management platform that generates personalized daily routines, recovery plans, and habit suggestions based on user goals and consistency patterns.

InterviewAI – AI-Powered Mock Interview Platform **Apr 2026**

React.js, Node.js, TypeScript, MongoDB, JWT + Passport | *mock-intervue-ai.vercel.app*

- Built a full-stack AI mock-interview platform supporting 8+ job roles with voice-based Q&A, real-time answer scoring, and automated PDF resume parsing.
- Engineered an ATS Resume Analyzer with keyword matching and weighted scoring, plus a one-click PDF resume builder.

OPEN SOURCE CONTRIBUTIONS

Next.js (vercel/next.js, 130k+ stars) | github.com/vercel/next.js/pull/95235 **Jun 2026**

- Identified and corrected misleading documentation regarding fetch caching behavior in the App Router migration guide, preventing developer confusion and ensuring accurate implementation of caching strategies. PR reviewed and merged into vercel:canary branch.

EDUCATION

Bachelor of Engineering – Electronics and Communication Engineering **Sept 2023 – Aug 2027**

Excel Engineering College (Autonomous), Komarapalayam, Tamil Nadu. **CGPA: 7.7 / 10**

Relevant Coursework: Web Technologies, Database Management Systems, Cloud Computing.

Achievements:

First Prize – Paper Presentation, Kongu Engineering College.

Participant – National Level Hackathon "TrixAthon 2025", Erode Sengunthar Engineering College.

CERTIFICATIONS

- AWS Certified Cloud Practitioner – Amazon Web Services *[View]* **Nov 2025**
- Cloud Computing & Full-Stack Development Mastery – L&T EduTech *[View]* **Jan 2026**
- Backend Development with MERN – L&T EduTech *[View]* **Dec 2025**
- Python 101 for Data Science – IBM / Cognitive Class *[View]* **Dec 2025**
