OBJECTIVE

B.Tech Artificial Intelligence and Data Science student with hands-on experience in Python, SQL, data analysis, full-stack application development, and database management. Interested in building practical AI-driven solutions and applying technical and problem-solving skills in real-world projects.

EDUCATION

SRI SHANMUGHA COLLEGE OF ENGINEERING AND TECHNOLOGY — Salem, Tamil Nadu
Bachelor of Technology – Artificial Intelligence and Data Science — 2023–2027
CGPA: 7.04/10.0

CHANDRA HIGHER SECONDARY SCHOOL — Cuddalore, Tamil Nadu
12th Grade: 78.7% | 10th Grade: All Pass — 2015–2023

CERTIFICATIONS

- Udemy – Machine Learning Real World Projects in Python | **CERTIFICATE**
- NPTEL – Basics in Java | **CERTIFICATE**

PROJECTS

AI-POWERED COURSE FILE GENERATOR

- Developed an academic web platform to automate course-material generation for engineering departments and regulations.
- My role: Database Management — designed and managed persistent application data in Supabase, including users, departments, subjects, regulations, generated content, and admin information.
- Implemented JSON-based data flow between frontend and backend, with Supabase for cloud storage and reliable data retrieval.

Tech Stack: React.js, Vite, Node.js, Supabase, JSON, Google Gemini API

FLICK CAST – AI MOVIE RATING PREDICTOR

- Built a full-stack AI application that predicts IMDb user ratings from 1.0–10.0 using movie metadata such as budget, genre, director track record, cast appeal, runtime, and plot.
- Integrated Google Gemini 3.6 Flash with Pydantic validation and structured JSON responses to generate ratings, analytical justifications, strengths, and audience risks.
- Developed a cinematic glassmorphism interface with Flask REST API integration, interactive score visualization, and quick movie presets.

Tech Stack: Python, Flask, Flask-CORS, Google GenAI SDK, Gemini 3.6 Flash, Pydantic, Pandas, HTML, CSS, JavaScript

SKILLS SUMMARY

Programming: Python, Java
Database: SQL, MySQL, Supabase
Data & Tools: Microsoft Excel, Power BI, Pandas
Web: HTML, CSS, JavaScript, Flask, React.js
Platforms: GitHub, Google Colab, Visual Studio Code, HackerRank

EXPERIENCE

- Hands-on experience in database management, data handling, Excel data analysis, and academic full-stack projects.
- Applied programming, problem-solving, and AI concepts to build practical applications.
- Experience working with structured data, REST APIs, cloud databases, and AI API integrations.

STRENGTHS & INTERESTS

Quick learner with strong problem-solving skills, adaptability, teamwork, and time management. Interests include Data Analytics, Artificial Intelligence, Machine Learning, coding, and learning new technologies.
