Profile

Data Analyst with hands-on experience in SQL, Python, Excel, Power BI, and Tableau. Skilled in data cleaning, transformation, SQL querying, KPI analysis, dashboard development, and data visualization. Experienced in using Power Query and DAX to transform data, build interactive dashboards, and generate actionable insights through analytical reporting.

Technical Skills

Programming: Python (Core Concepts, OOP)
Database: SQL, MySQL (Joins, Subqueries, Aggregate Functions, Window Functions, GROUP BY, CASE, CTEs)
Excel: Pivot Tables, VLOOKUP, XLOOKUP, Data Filters, Conditional Formatting
Visualization Tools: Power BI, Tableau
Libraries & Tools: Pandas, NumPy, Power Query
Data Skills: Data Cleaning, Data Transformation, Data Modelling, KPI Analysis, Data Visualization, DAX

Work Experience

Data Analyst Intern **Mar 2025 - Aug 2025**
Besant Technologies

- Performed **data analysis and reporting** using SQL, Python, Excel, Power BI, and Tableau to derive insights from structured datasets.
- Developed and optimized **SQL queries** using joins, subqueries, aggregate functions, window functions, GROUP BY, CASE statements, and CTEs for analytical reporting.
- Used **Python, Pandas, and NumPy** for data cleaning, preparation, processing, and exploratory analysis.
- Performed **data transformation and modelling** using Power Query and created **DAX calculations** for Power BI analysis.
- Designed **interactive Power BI dashboards** with KPIs, filters, and visualizations to identify trends, patterns, and key insights.

Projects

Student Performance Data Analysis **Power BI, Power Query, DAX, Excel**

- Developed an **interactive Power BI dashboard** to analyze student marks, pass/fail rates, subject-wise performance, semester trends, and department-level insights.
- Transformed and modelled data using **Power Query and DAX** to create KPIs, analyze performance trends, and present insights through interactive visualizations.

Healthcare Financial Data Analysis **Power BI, Power Query, DAX, Excel**

- Developed an **interactive Power BI dashboard** to analyze medication costs, treatment expenses, insurance coverage, and out-of-pocket payments.
- Transformed and modelled healthcare financial data using **Power Query and DAX** to generate KPIs, perform cost analysis, and identify spending patterns.

Education

B.Tech in Biotechnology **CGPA: 8.03**
Rathinam Technical Campus 2020 –2024

HSC **60%**
SPM Higher Secondary School 2018 – 2020

SSLC **84%**
GOVT. Higher Secondary School 2018 – 2020

Certifications

- Data Analysis Certification - Besant Technologies
- Excel Certification
- Python Certification
- SQL Certification
- Power BI & Tableau Certification
