OBJECTIVE

Aspiring Software Developer with strong foundations in Java and web development. Experienced in building real-world web applications using backend technologies and databases. Seeking an entry-level software role to apply problem-solving skills and contribute to scalable software solutions.

EDUCATION

B.E - Computer Science and Engineering 2022 - 2026

KSR College of Engineering | CGPA: 8.4

Higher Secondary 2020 - 2022

Vidhya Vikas Girls Hr.sec.school | Percentage: 89

High School 2019 - 2020

Vetri O.S.S High School | Percentage: 82

PROJECTS

Online Assessment Tool

Developed a full-stack web application offering coding assessments in Java, Python, and C. Implemented a basic recommendation system that provides learning resources based on test scores. Created an admin portal to view individual user scores.

AI-Based Real-Time Spam Call Detection with Explainable Insights

Developed an AI-driven system for real-time spam call detection using hybrid CNN–BiLSTM models. Incorporated Explainable AI techniques such as SHAP and LIME for transparent predictions. Aiming to enhance communication security with adaptive learning and high detection accuracy.

Smart Job Finder (Ongoing)

Developing an AI-based job recommendation system using Spring Boot microservices. Implementing resume analysis and NLP techniques for skill extraction and job-role matching, aiming to provide accurate and personalized career recommendations.

SKILLS

- **Programming languages:** Java.
- **Frontend Technologies:** HTML, CSS, JavaScript.
- **Database:** MySQL.
- **Tools and Platforms:** GitHub, VS Code, Postman, MySQL Workbench.
- **Concepts:** OOP, DBMS, Basic Data Structure.

INTERNSHIP

Java Intern Rejola IT Services, Chennai July-2024

- Strengthened core Java concepts including OOP principles and exception handling
- Worked on file handling and multithreading concepts
- Applied design patterns to write reusable and maintainable code
- Gained exposure to real-world development practices

CERTIFICATIONS
