PROFESSIONAL SUMMARY

AI Engineer with **expertise in LLM model development** and applications using RAG pipeline and vector databases, Proficient in designing and **deploying production grade AI solutions**.

SKILLS

Languages: Python, SQL
ML & AI Frameworks: TensorFlow, Scikit-learn, Hugging Face Transformers, LangChain
AI & API Skills: OpenAI API, Gemini API, Prompt Engineering, RAG, Vector Databases (ChromaDB)
Data & Analytics: Pandas, NumPy, Matplotlib, Seaborn
Backend & Deployment: FastAPI, Docker, Render, Git, GitHub
Databases: MySQL, MongoDB
Tools: VS Code, Jupyter Notebook, Power BI

EXPERIENCE

Reel2Cart Technologies | (Academic Startup) ,Technical Lead, Namakkkal 2025 - Present

- I Worked as a team member on a reel-based social commerce platform, contributing to key technical decisions and cross-functional collaboration.

Supporticon Strategies Private Limited | Junior Software Developer(Intern), Salem Aug 2025 - Sep 2025

- I have worked on developing website usage analytics dashboard (10+ metrics, MongoDB) ,Gained immense knowledge on AI agents, LLMs and end to end development in production grade SaaS environment.

PROJECTS

Res-Q-Food – AI powered food donation platform | Team Leader, AI Developer | (Final Year Project) 2026 - Present

- Working on final year project Res-Q-Food which helps in smartly allocating the food donations to relevant NGOs and Volunteers thus reducing manual efforts in tracking the food donations and avoiding wastage of food grains.

Chef Rolex.ai – Intelligent Recipe Assistant 2026

- I have developed Intelligent Recipe Assistant using FastAPI with personalized meal plan suggestions with sub second AI response time, rate limiting and 99.9% uptime by deploying the full stack solution.

ATS X-Ray – Resume Analyzer 2025

- I have created containerized resume parser (Python, FastAPI, MongoDB, Docker) with Gemini 2.5 Flash API for NLP & Vision OCR, ATS Scoring, JWT auth and personalization and achieved 90%+ accuracy in cover letter generation.

EDUCATION

Bachelor of Engineering in Computer Science - (CGPA : 8.07*) 2023 - Present
Mahendra Institute of Technology, Namakkal

HSC (12th Grade) – Mathematics and Computer Science - (70.5%)
Modern Higher Secondary School, Salem 2022 - 2023

ACHIEVEMENTS & LEADERSHIP

Project Lead – "English Pesalaam Vaainga" Book Development 2025

- Led a team of 20 junior students in book development project and delivered the project on time.

Event Coordinator – Hackfest 2025

- Coordinated Hackfest 2025 at Annapoorna Engineering College, guiding participants through a smooth two-day inter-college hackathon.

CERTIFICATES

Udemy – Data Structures and Algorithms Course 2026 - Present

- This course provided in depth knowledge on data structures and algorithms (arrays, strings, sorting and searching) and helped me improve my coding skills.

Artificial Intelligence – Rinex Organization Jan 2024 - Mar 2024

- 3-month internship and AI course at Rinex - hands-on exposure to software development workflows and foundational AI concepts.
