OBJECTIVE

Final-year IT student with hands-on cybersecurity and web development experience, seeking a Software Engineer or Cybersecurity role to apply technical skills, contribute to real projects, and learn in a professional environment.

EXPERIENCE

CUBEAI TECH SOLUTION **(July-2025)**

Cybersecurity Intern

- Assisted in identifying web vulnerabilities based on OWASP Top 10 and performed basic penetration testing.
- Used tools like Burp Suite, Wireshark, and Linux for security analysis and documentation.
- Supported phishing detection tasks and contributed to cybersecurity reports.

SPARKOUT TECHNOLOGIES **(Jun -2025)**

Mern Stack Development Intern

- Developed web features using MongoDB, Express, React, and Node.js.
- Built responsive UI components, integrated REST APIs, and performed debugging.
- Collaborated with the team using Git/GitHub and followed agile practices.

EDUCATION

Excel Engineering College (2023–2027)
B.Tech — Information Technology
HSC — SD Eaden Matric Hr. Sec. School (2021–2023)
SSLC — SKV Higher Secondary School (2019–2021)

PROJECTS

- Smart URL Analyzer – Tool for detecting malicious URLs using API-based threat intelligence.
- Network Monitoring And Automation Platform – It's a system to monitor the network health and automated the feaures like logs and alerts.
- BuzzGuard – Real-Time Android Safety Application, Developed a real-time Android safety application using Android Studio.

WORKSHOPS

- Hackathon'25 – AppViewX & Payoda (30 hours)
- Large Language Model Workshop – Karpagam College of Engineering
- Arduino Hands-on Training – KPR Institute of Technology
- SecurityBoat Community Meetup – CloudSEK, Bangalore

SOFT SKILL

- Time management and task prioritization
- Team collaboration and communication skills
- Quick learner and adaptable to new technologies

TECHNICAL SKILL

- Languages: Java, Python
- Web: HTML, CSS, React, Node.js
- Cyber Security: Burp Suite, Wireshark, OWASP Top 10
- OS: Linux, Windows
- Version Control: Git, GitHub

CERTIFICATIONS

- Web Development – GUVI
- Frontend Development – Great Learning
- Ethical Hacking, Blockchain and its application – NPTEL
- Cyber Security Educator Professional(CCEP) – Red Teams Leaders
- Ethical Hacking: Zero to Hero – Udemy
- Cyber Security – CappricioSec University
