Summary

Final-year Computer Science and Engineering student with strong skills in Java, SQL, web development, and problem-solving. Passionate about software development, building efficient applications, and continuous learning. Seeking an entry-level Software Engineer role to apply technical skills and contribute to a professional engineering team.

Education

B.E. Computer Science & Engineering *2023 – 2027*
Sri Shanmugha College of Engineering and Technology, Pullipalayam CGPA: 8.4

Higher Secondary Certificate (HSC) *2022 – 2023*
SVB Matric Higher Secondary School, Sakkarampalayam Aggregate: 74%

Technical Skills

Programming Languages: C, Java (OOPS), SQL

Database Management: MySQL

Web Development: HTML5, CSS3, JavaScript

Tools & IDE: VS Code, Git, GitHub

Soft Skills: Communication, Teamwork, Problem Solving, Time Management, Adaptability

Projects

College Event Management Hub *React.js, Node.js, Express.js, MongoDB — 2026*

- Engineered a full-stack College Event Management Hub using React.js, Node.js, Express.js, and MongoDB, implementing RESTful APIs and CRUD operations for event creation, registration, modification, deletion, and user management.
- Implemented role-based Admin and Student dashboards with Gmail OTP authentication using Nodemailer, dynamic event data handling, responsive React.js components, and MongoDB integration for secure and centralized event management.

SmartTube AI – Multilingual Video Intelligence Platform *AI, Full Stack, Groq API — 2026*

- Engineered a full-stack AI video intelligence platform using React 18.3.1, Vite 5.3.1, Tailwind CSS 3.4.4, Node.js, and Express.js 4.19.2, integrating YouTube transcript extraction and REST APIs for AI-powered content processing.
- Integrated Groq SDK 1.1.2 with Llama 3.1 8B Instant for multilingual summaries, quizzes, notes, insights, mind maps, and conversational AI.

Personal Portfolio Website *HTML5, CSS3, JavaScript — 2025*

- Designed and developed a fully responsive portfolio website showcasing projects, technical skills, and achievements.
- Applied responsive design and UI/UX principles to provide a consistent experience across devices.

Experience

Web Development Training – QSpiders *Feb – Apr 2025*

- Completed 3-month web development training with hands-on practice in HTML, CSS, JavaScript, and Java through front-end development projects.
- Developed 3+ responsive front-end web applications using HTML, CSS, and JavaScript with cross-browser compatibility across devices.
- Utilized Git and GitHub for version control and project deployment throughout the development process.

Certifications

- Cloud Computing – NPTEL **(Elite, 63%)**
- Introduction to Machine Learning – NPTEL **(Elite, 70%)**

Achievements & Activities

- Solved 150+ problems on LeetCode, strengthening data structures and algorithmic problem-solving skills.
- Achieved 5 - Star in C and 3 - Star in Java on HackerRank.
- Developed and maintained 5+ technical projects on GitHub, demonstrating practical software development skills.
- Solved 200+ programming problems in C and 100+ problems in Java, with solutions maintained on GitHub.
