PROFESSIONAL SUMMARY

Computer Science Graduate with hands-on full-stack development experience, seeking a Java Developer / Software Engineer role with proven experience in backend development using Java, Spring Boot, RESTful APIs, SQL, HTML, CSS, JavaScript, and MySQL. Skilled in writing clean, efficient, and testable code, translating business requirements into functional applications, debugging issues, and optimizing performance. Completed full-stack projects applying OOP principles, MVC architecture, and SDLC best practices. Exposure to Spring Security and Hibernate, with strong problem-solving, teamwork, and adaptability skills.

SKILLS

Programming & Web Technologies: Java, Python, SQL, HTML5, CSS3, JavaScript.
Framework & Library: Spring Boot(MVC), Bootstrap (Familiarity with hibernate, Spring Security).
Database: MySQL.
Tools & Platforms: Maven, Eclipse, VS Code(IDE), Postman(API testing), Git/GitHub.
Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithm, RESTful APIs, MVC Architecture.

PROJECTS

Duplicate Detection on Cloud Data with Re-Encryption based on Data Sharing | PHP, MySQL

- Designed and implemented a cloud storage optimization system integrating secure deduplication and re-encryption to eliminate redundant data, enhance storage efficiency, and enable secure, privacy-preserving file sharing.
- Developed user authentication and role-based access control (RBAC) for managing file upload, access, and sharing permissions. Optimized backend logic in PHP and MySQL, improving file upload and retrieval performance by 20% compared to the initial prototype.

Real Estate Management System | Java, Spring Boot, Thymeleaf, MySQL, AI Chatbot

- Developed a full-stack real estate platform for property listing, buying, and inquiry management using Spring Boot and Thymeleaf.
- Built an AI-powered chatbot that provides real-time property recommendations based on user preferences and search inputs. Implemented REST APIs, MySQL database integration, authentication features, and responsive UI for seamless user experience.

Online Grocery Store Management System | Java, Spring Boot, Thymeleaf, MySQL, Razorpay

- Developed a full-stack grocery store application for product browsing, cart management, and online order processing. Integrated Razorpay payment gateway for secure online payments and seamless checkout experience.
- Implemented REST APIs, MySQL database integration, authentication, product search, category filtering, and real-time order management features.

INTERNSHIP EXPERIENCE

Full Stack Web Development Intern – IDM TechPark (2024)

- Developed full-stack applications using Java, Spring Boot, MySQL, HTML5, CSS3 and JavaScript.
- Implemented RESTful APIs and optimized performance, reducing load times by 15%.
- Delivered multiple features in collaboration with the team.

Frontend Development Intern – Marcello Tech (2023)

- Created responsive UI components using HTML, CSS, JavaScript, and React.
- Optimized assets and scripts, improving page load speed by 20%.
- Collaborated with the team to implement interactive features for enhanced user experience.

EDUCATION

- **Bachelor of Engineering in Computer Science (2020–2024)**
  Sengunthar Engineering College, Tiruchengode | CGPA: 8.05
- **HSC (2019–2020)**
  JKK Nataraja Matriculation Higher Secondary School, Komarapalayam | Percentage: 68%
- **SSLC (2017–2018)**
  Government Boys Higher Secondary School, Komarapalayam | Percentage: 80%

CERTIFICATE

- **Java Full Stack Development** – QSpiders, Velachery.
- **HTML, CSS, Python, SQL** – Alpha Tech Academy.
