ZEESHANALI G

Data Support | Python | SQL

zeeshan28.tech@gmail.com | +91-8072223724 | linkedin.com/in/zeeshanali-g | Coimbatore, India

PROFESSIONAL SUMMARY

Recent IT graduate with hands-on project experience in Python and SQL-based automation, structured data handling, and process-oriented workflows. Developed academic projects focused on replacing manual, repetitive tasks with reliable scripted tools, possesses a strong foundation in data handling, technical support, and scripting with the ability to adapt quickly to new tools and environments. Detail-oriented and hardworking fresher ready to tackle challenges and contribute to organizational success with dedication.

SKILLS

Automation & Scripting	Python, SQL query optimization
Data & Reporting	Structured data storage, reporting dashboards, data integrity checks
ITIL & Service Management	ITIL awareness (Incident, Problem, Change, Service Request), SLA-driven workflows, Service Now creating, updating, and closing incidents in line with defined process steps
Technical Support	Resolving recurring technical issues (Windows OS, Microsoft 365) by identifying patterns and applying repeatable fixes; remote support via AnyDesk and Zoho Assist
Web / Data Tools	HTML & SQL dashboards, basic dashboard/reporting development
Office & Collaboration	Microsoft 365 (Excel, Word, PowerPoint, Teams), cross-functional & cross-location collaboration
Soft Skills	Clear documentation, Time management, Shift flexibility, Team collaboration

PROJECTS

Contact Management System | Academic Project

- Built a Python-based CLI tool to automate record management, replacing manual data entry with a scripted, repeatable workflow — directly analogous to automating recurring engineering or administrative calculations.
- Used PostgreSQL as a centralized data store instead of scattered files, mirroring the goal of consolidating fragmented data into one consistent source.
- Optimized SQL queries for fast, reliable retrieval, supporting quick reporting and data extraction.

Centralized Monitoring Dashboard | Academic Project

Developed a real-time PHP & SQL dashboard to centralize monitoring dashboard

- Developed a real-time PHP & SQL web dashboard integrating multiple data sources into a single monitoring view, similar toconfiguring client-facing reporting features.
- Implemented blockchain-based data integrity checks to ensure traceability, auditability, and security of records — aligned with data protection best practices.
- Built aggregated reporting pipelines that transformed raw data into a standardized, easy-to-consume format for endusers.

EDUCATION

Institution	Degree	Percentage/ CGPA	Year
Vidyaa Vikas College of Engineering and Technology	B.E – Computer Science & Engineering	7.55	2025
KSR Polytechnic College	Diploma – Computer Engineering	75%	2020
Kamaraj Municipal Hr Sec School	SSLC	65%	2017

CERTIFICATIONS & ACHIEVEMENTS

- Advanced Python Programming — Manfree Technologies
- Spring Data JPA with Spring Boot — Infosys Springboard
- Data Science using Python — Simplilearn (SkillUp)
- Office Master Excel using AI — Workshop Certification
- 1st Prize, Paper Presentation — JKKN College of Engineering and Technology
- National Level Symposium Participant — Sengunthar Engineering College
