DHANASEELAN A

Erode, Tamil Nadu | +91 6383694530 | dhanaseelandhanaseelan464@gmail.com
GitHub | LinkedIn | LeetCode | Portfolio

PROFESSIONAL SUMMARY

I am an aspiring Full-Stack Developer with hands-on experience in building responsive web applications and working with data. I have worked with React.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Python, SQL, Pandas, NumPy, and Power BI. I also have experience with REST APIs, databases, data cleaning, data transformation, data validation, and dashboard reporting. I have built and deployed real-world projects covering web applications, data processing, analytics, and interactive dashboards. I am interested in Full-Stack Development, Data Engineering, and AI, and I keep improving my skills through projects and practical learning.

EDUCATION

B.Tech in Information Technology — Nandha Engineering College, Erode, Tamil Nadu 2023 – 2027
CGPA: 8.5/10

Higher Secondary — Diamond Jubilee Higher Secondary School, Gobichettipalayam, Tamil Nadu 2021 – 2023
Percentage: 80%

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, TypeScript
Frontend :React.js, React Native, HTML5, CSS3, Tailwind CSS
Backend & APIs: Node.js, REST APIs, API Integration
Data Processing: Pandas, NumPy
Databases: MySQL, PostgreSQL, Firebase
Tools: Git, GitHub, VS Code, Postman
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

Turf Zone: Playground Slot Booking System *(React, TypeScript)* turfzone.com
- Developed slot creation, real-time availability, booking, payment tracking, and revenue reporting on a centralized database.
- Implemented OTP-based authentication, automated booking confirmations, and notification workflows.

Gym Management System *(React, TypeScript)* gym.artechnology.pro
- Developed a platform to manage members, memberships, attendance, and payments with centralized data handling.
- Built dashboards for revenue analytics, fitness progress, active-member insights, and membership expiry alerts.

Railax: Railway Waiting Hall Booking System *(React, TypeScript, Tailwind CSS)* railax.artechnologi.com
- Built a responsive booking system for AC railway waiting halls at Erode and Tiruppur with 2 user roles: Admin and Biller dashboards.

Park Ease: Smart Parking Mobile App *(React Native)* Google Play Store
- Automated vehicle entry and exit tracking with card scanning and duration-based parking-fee calculation, reducing manual billing effort.

Smart Landmine Detection & Soldier Monitoring System *(ESP32, Embedded C, GPS, Firebase)* 1st Prize, 24-Hour Hackathon
- Built an ESP32-based wearable that detects metallic landmines with vibration alerts; integrated NEO-6M GPS and Firebase for real-time location tracking.

Time Table Scheduler *(Web application)* Hosted at my college
- Generated conflict-free class timetables from faculty, subject, and room data using scheduling logic.

PROFESSIONAL EXPERIENCE

Frontend Developer, Consultancy Project & AR Technologies Jun 2025 – Jul 2025
- Developed responsive and reusable UI components using React.js, TypeScript, and Tailwind CSS for web application modules.
- Integrated REST APIs with frontend components and implemented client-side features for application functionality.
- Performed functional testing and debugging to identify and resolve UI and API-related issues.

ACHIEVEMENTS

- First Prize, 24-Hour Hackathon: Smart Landmine Detection & Soldier Monitoring System
- Participant, Smart India Hackathon
- IT Department Secretary and IEEE Student Branch Webmaster, Nandha Engineering College
