Professional Summary

Electronics and Communication Engineering undergraduate with hands-on experience in Python, AI/ML, and software development. Experienced in building AI-enabled applications, automation tools, and ERP systems. Strong interest in developing practical software solutions using artificial intelligence and modern development technologies. Currently focused on strengthening Python and AI integration for software and technology roles.

Practical Experience

- Worked on academic and industry-oriented projects involving AI, automation, and software development.
- Developed AI-powered applications using Python, FastAPI, Gemini, and Google Workspace automation for intelligent assistant and productivity use cases.
- Contributed to the development of a Canteen Management ERP for SAIL – Salem Steel Plant, including inventory and operational management.

Projects

RESCUE-VISION+ – Smart Rescue System *Jan 2024*

- Designed an AI-based rescue system for victim detection, emergency assistance, and communication.
- Applied computer vision, thermal imaging, GPS, LiDAR, and long-range communication for disaster-response applications.

Nova – AI Personal Assistant *Dec 2025*

- Developed an AI-powered personal assistant using Python, FastAPI, Gemini.
- Implemented intelligent task processing and Google Workspace automation for productivity use cases.

Canteen Stock Inventory Module For SAIL - Salem Steel Plant *Feb 2026*

- Developed an ERP-based solution for canteen inventory, orders, and operational management.
- Worked on Python, MySQL, UI development, and database integration.

Technical Skills

Programming Languages: Python, SQL, HTML, CSS
Frameworks & Technologies: FastAPI, n8n Workflow Automation
Databases: MySQL
Developer Tools: Git, GitHub, VS Code, Google Colab, MATLAB, Simulink,

Internship

Salem Steel Plant – SAIL *Feb 2026 – May 2026*
Software / ERP Project Intern

- Worked on the development and documentation of the SAIL Canteen Management ERP project.
- Contributed to UI development, database implementation, testing, and project documentation.

Data Pattern India Pvt. Ltd. *Dec 2024 – Jan 2025*
Generative AI Intern

- Developed an AI-powered Personal Assistant using Generative AI, LLMs, Fast APIs, and n8n workflow automation.
- Gained hands-on experience in prompt engineering, chatbot development, and intelligent automation.
- Awarded an Excellent Performance Certificate for outstanding performance.

Certifications & Achievements

Data Patterns, *AI in ECE – Excellent Certified Intern* *Jan-2025*
Hackathon For Inclusion,, *Participated in Virtual Hackathon* *May-2026*
IEEE Xtreme 18.0 & IEEE Xtreme 19.0, *24-Hour Programming Competition* *Sep-2024 & 2025*

Education

Excel Engineering College *2023-2027*
B.E. Electronics and Communication Engineering CGPA: 7.8

Government Girls Higher Secondary School *2022–2023*
Higher Secondary Certificate, State Board 78%
