Summary

Motivated Artificial Intelligence and Data Science student with a strong foundation in machine learning, data analysis, Python, SQL, and .NET development. Passionate about solving real-world problems using AI and data-driven solutions, with strong analytical, problem-solving, and teamwork skills.

Professional Experience

AI & Full Stack Developer Intern, *Smartworkz Company* 2026-03
Sankiri,Salem DT

- Developed web applications using ASP.NET Core, C#, SQL Server
- Leveraged **AI tools** to accelerate development, improve productivity, and assist in designing and implementing web application features.
- Built and contributed to projects including an **E-commerce Dress Shop, Portfolio Websites, and a Business Analysis Dashboard.**
- Gained hands-on experience in full-stack development, AI-assisted development workflows, and real-world software development practices.

Machine Learning Intern, *ABE Semiconductor Designs*

- Built, trained, and evaluated machine learning models using real-world datasets to generate predictions and actionable insights.
- Developed a hands-on machine learning project by applying supervised and unsupervised learning algorithms for data analysis and prediction.
- Performed data preprocessing, feature engineering, model training, and performance evaluation to improve prediction accuracy.

Skills

- Programming Languages: C#, Python, JavaScript, SQL
- Databases: SQL Server
- AI Tools: Claude, AntiGravity, Stitch AI
- Frameworks & Technologies: ASP.NET Core (.NET), HTML5, CSS3, Bootstrap
- Data Visualization: Tableau
- Development Tools: Visual Studio, Visual Studio Code, Git, GitHub

Languages

- English
- Tamil

Certificates

- UI UX Design – KSR College of Technology
- Introduction to Machine Learning -Great Learning

Awards

C.CTC ⇒ 16,000/-
NP ⇒ 30 days.
Native ⇒ Sankagiri / Salem //

Projects

Language Detection Using Machine Learning, *Developed a classification model to identify the language of user input. Used supervised learning techniques and evaluated on multilingual datasets*

Farmer Connect System–Web Platform, *Built using ReactJS, Supabase, and OpenRoute for geolocation services. - Enabled farmers to list products and receive orders from consumers directly. - Goal: Reduce middlemen, ensure fair pricing and delivery tr*

AI Integrated Language Detection and Translation System, *Built a multilingual web app using React.js, Tailwind CSS, and Flask, integrating translation, speech-to-text, and text-to-speech features. Implemented googletrans, gTTS, speech_recognition, and langdetect to enable automatic language detection, translation, and voice interaction.*

E-Commerce Dress Shop, *Technologies: ASP.NET Core, Tailwind CSS, SQL Server, Claude AI*
Developed a responsive e-commerce web application for browsing and managing clothing products. Implemented product listings, categories, user authentication, and database operations using SQL Server. Leveraged Claude AI to accelerate development, code generation, and UI enhancements.

Car Portfolio Website, *Technologies: ASP.NET Core, Tailwind CSS, SQL Server, Claude AI*
Built a modern car portfolio website to showcase vehicle collections with detailed specifications and responsive design. Integrated SQL Server for data management and utilized Claude AI to streamline development and improve the user interface.

Event Booking System, *Technologies: ASP.NET Core (Razor,Blazor) Tailwind CSS, SQL Server, Claude AI*
Designed and developed an event booking platform that enables users to browse events, register, and submit bookings. Implemented secure database management with SQL Server and used Claude AI to assist in feature development, UI design, and code optimization.

Lead Analysis Dashboard, *Technologies: .NET, SQL Server, REST APIs, Data Analysis Algorithms*

Interests

- AI-Powered Web Development
- AI Tools & Automation
