Portfolio: vasanthraj.neocities.org | Linkedin: linkedin.com/in/vasanthrajrajavel31

PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science graduate (B.Tech, 2026) with hands-on project experience in machine learning, computer vision, and data visualization using Python. Skilled in building end-to-end AI solutions and comfortable working across full-stack web technologies. Certified in Java, reinforcement learning, and data visualization, with a strong foundation in analytical thinking and problem-solving.

EDUCATION

Knowledge Institute of Technology — B.Tech, Artificial Intelligence and Data Science *2022 – 2026*
CGPA: 8.34 / 10

PSG Matric Higher Secondary School — Class XII *2019 – 2020*
Percentage: 79.16%

Nalandas Higher Secondary School — Class X *2017 – 2018*
Percentage: 94.4%

TECHNICAL SKILLS

Programming Languages: C, Java, Python

Machine Learning & Data Tools: Pandas, NumPy, OpenCV, Data Visualization

Web Technologies: HTML, CSS, TypeScript, Javascript, ReactJS, NodeJS

Tools & Platforms: Git, GitHub, VS Code, Power BI, Tableau, MySQL

PROFESSIONAL EXPERIENCE

Java Programming Intern — StackQueue

- Completed a hands-on internship strengthening core Java programming skills, including loops, conditional logic, arrays, strings, and functions.
- Built and debugged small console-based applications, reinforcing logical problem-solving and coding fundamentals.

Machine Learning Intern — TechForge

- Gained practical exposure to core machine learning algorithms and their real-world applications.
- Used data visualization tools such as Tableau and Power BI to analyze datasets and present actionable insights.

PROJECTS

Kotoba — JLPT N5 Learning Platform

- Developed a full-stack Japanese vocabulary learning web app with flashcard, daily seeded quizzes, and a real-time leaderboard with learner profiles. Built an interactive challenge arena with live MCQ battles, kanji flashcard study and a community chat.

Hotel Billing Assistant

- Developing a voice-controlled billing system that lets hotel and restaurant customers place orders remotely from their rooms.
- Building a speech-to-text order pipeline with automated bill generation to streamline in-room service.

AI-Powered Website Builder (Low-Code/No-Code Platform)

- Collaborated on a browser-based drag-and-drop website builder with AI-assisted layout correction and responsive design suggestions.

PUBLICATION

Co-authored "AI-Powered Low-Code / No-Code Development Platform for Intelligent Application Engineering," presented at the 4th International Conference on Recent Advances and Innovations in Science, Engineering, Technology and Management, Solamalai College of Engineering (ISBN: 978-93-5812-780-5).

CERTIFICATIONS

- Programming in Java — NPTEL
- Reinforcement Learning — NPTEL
- Python Fundamentals — Great Learning
- Data Visualization using Python — GUVI
- Japanese Language Proficiency, N5 — JLPT

ADDITIONAL INFORMATION

Languages Known: English (Professional), Tamil (Native), Japanese (JLPT N5)

Key Strengths: Analytical Thinking, Problem-Solving, Team Collaboration, Adaptability, Communication
